

Capital Locator: A Free Financier Resource for MBDC consultants

The **CAPITAL LOCATOR** is an Internet-based tool that allows MBDC consultants to inquire about, identify and locate potential financiers nearest them. This tool shall provide basic financing criteria for each identified capital resource. The tool is designed to give users the benefit of a nationwide market for identifying financing needs and products.

The Capital Locator allows you to search by Capital Type or by Geographical Location. You'd search by *capital type* to find and download sources of capital by financing types such as property and equipment loans, working capital, venture capital, mezzanine, micro-loans and more. You'd search by *geographical location* to find and download sources of capital identified by state, city and zip code in which the resource is located. Your results are based on the search criteria that you choose.

To get started, you must be a registered MBE and a MBDC consultant. You can create your FREE MBDA Portal Account by visiting the MBDA.gov website. If you are a registered MBE, once you have logged into the MBDA Portal, you'll find the Resource and Capital Locator underneath our Tools & Services section on the front page.

If you need assistance with using the Capital Locator application or if you need assistance with registering for your free MBDA Portal Account, call our support staff at 1 (888) 324-1551 or you may email us at help@mbda.gov.
